

Quick Shine

Hard Floor Cleaner & Maintainer

- Increases gloss
- Improves durability & wear
- Removes scratches
- Increases slip resistance
- Improves black heel mark resistance

F2 FLOORCARE

Quick Shine is a multipurpose neutral cleaner-maintainer for use on sealed and unsealed floors. Quick Shine combines the detergency technology of neutral detergent and a blend of waxes and polishes to replenish and repair the surface of floor sealers damaged during daily wear. The blend of waxes and polishes used in Quick Shine facilitate easy burnishing, increase gloss and increase slip resistance. Quick Shine may also be used on unsealed floors to provide soil and stain resistance, black heel mark resistance and improve cleaning performance. Quick Shine may be used to improve the cleaning and maintenance of tarkett, rubber floors and specialised anti-slip flooring.

Quick Shine is designed to be used in conjunction with Neutrol low foaming neutral detergent in a weekly maintenance schedule.

DIRECTIONS FOR USE

Mop & Buckets: 17mL/L of water
Autoscrubber: 17mL/L of water
Spray Buffing: 100mL/L of water

Sealed Floors: Apply Quick Shine to the floor by mop and bucket or an autoscrubber at the correct dilution to clean and maintain floor. Quick Shine should be used once or twice a week to restore and rejuvenate sealed floors.

Unsealed Floors: Quick Shine can be used to improve the cleaning and appearance of unsealed floors such as tarkett and antislip rubber. After cleaning with a neutral detergent spray buff Quick Shine at a 1:10 (100mL/L) dilution using a red pad. When used regularly Quick Shine will impart soil and heel mark resistance.

SAFETY DATA

For further information refer to the Safety Data Sheet (SDS)

HEALTH AND SAFETY STATEMENT

There is no way of predicting an individual's response to cleaning or disinfecting products. All cleaning and disinfecting products have potential to cause skin and other irritation in susceptible individuals. Direct physical contact with the skin should be avoided. If irritation does occur when using this product or any other cleaning/ disinfecting solution then the individual should be removed from direct contact with the solution until a satisfactory safe working environment for that individual is determined.
