

Air Freshener Powder Fresh

DESCRIPTION & BENEFITS

Air Freshener – Powder Fresh is a dark blue thin liquid with a powder fresh fragrance. It is a quaternary based disinfectant designed to counteract bad odours. It is a water based freshener and intended for use as a high quality disinfectant, cleaner and deodoriser. The highly residual powder fresh fragrance makes it suitable for use in healthcare, institutions, commercial buildings and many other areas.

Air freshener – Powder Fresh may be used neat or diluted, depending on the application. It can be sprayed into the air or applied directly onto any type of surfaces.
